

# MD ABDUS SAKUR

## Front-End Developer

I am not professional and experienced but I am confident with my work what I know. Simply I always like to learn new things from new people and like to fill up my lack and want to improve new skills.

## MY WORKS

### ➤ Full Stack Website (Diamond-Restaurant)

[Client-Site Link](#) | [Server-Site-Link](#) | [Live-Site Link](#)

For UI there will be admin and ordinary user's section, login redirect and have different data input interface based on database according to users.

- **For Client-Site** code I use Node.js, React.js, React-router Dom, Firebase and google font-awesome
- **In the client site** I use mongo dB atlas, node-express, Axios and Cors. In both sides we use git ignore and .env file to keep information secret.
- Fully responsive website with functions like update, delete, purchase, review, admin login, manage orders, manage items and add items.

### ➤ Full Stack Website (Call-delivery)

[Client-Site Link](#) | [Server-Site-Link](#) | [Live-Site Link](#)

- **For Client-Site** code I use same function like above mentioned project.
- **In the client site** I use mongo dB atlas, node-express, React.js, Axios and Cors and two types of login system
- Fully responsive website. Normally users can order products, delete item, give review

### ➤ Front-End Website (Health-Care)

[Client-Site Link](#) | [Client-Server Link](#)

- This project is just Front-End website with firebase, HTML, CSS, React and Node.js.
- I use json data from public folder to get data.
- I use Netlify deploy for live site.

## EDUCATION

### Bachelor Background

Yunnan University, CST, (2018-2022-Expect) | Kunming, China

## SKILLS

### • Web Development

Node.js, HTML5, CSS3,

React.js, Express.js, Payment

Gateway, MongoDB and

Firebase.

### • Web Framework

Bootstrap, Tailwind, Material-UI

### • Tools

Git, Vs Code, Chrome Dev

Tools, Heroku and Netlify

### • Networking

Cisco Packet Tracer

### • Media Tools

MS Word, Power Point, Excel,

Camtasia and Adobe

Photoshop

## ACHIEVEMENTS

- Certified Developer from Web. Programming-hero
- 2019 Outstanding Internationals Students Scholarship holder. From CSC Council

## LANGUAGES

- Bengali (Native)
- English (Advanced)
- Chinese (Basic)
- Hindi (Basic)
